

Noureddine CHAIB,
Candidate for IEEE ALGERIA Section Treasurer,

BIOGRAPHY

Noureddine CHAIB received the Phd degree in computer science from Amar Telidji University of Laghouat and serves as treasurer for IEEE Algeria Section. He is currently an assistant professor in the Computer Science Department and the Chief Information Officer of Amar Thelidji University. He is a member of the mathematic and computer science laboratory and a member of IEEE Vehicular Technology Society. He received the degree of engineering in computer science from Amar Teldji University of LAGHOUAT, Algeria, in 2007, and the degree of Master of engineering in computer science from the Hadj Lakhdar University of BATNA, ALGERIA in 2011.

In 2008, he joined the Department of Computer science, University of Amar Telidji, as an instructor, and in 2009 worked as a computer science engineer at DLEP responsible for IT services.

In 2011 became a permanent assistant professor and a member of the computer science and mathematics laboratory.

His research interests include Security, Privacy, Mobile and Vehicular networks and other networking topics.

IEEE ACTIVITIES

IEEE Treasurer of Algeria Section,
Algeria Section Primary Delegate in IEEE Section Congress,
Algeria Section Primary Delegate in the IEEE educational activities training workshop
Member of IEEE Vehicular Technology Society.

QUALIFICATIONS

DLEP (Direction des Logements et des Equipements Publique) is the Algerian local authority in charge of managing local funds of buildings and equipments. I have worked in this administration for a couple of years where I had the chance to strongly understand how funding and managing budgets works. Currently, I work as full-time university assistant professor, this gave a full understanding of academia and how it works. I am also a member of our department's research Lab, I have published journal and conference papers, this also gave me experience and how research and conferencing work. In addition to that, I was a visiting researcher in Ottawa University in 2013 and Carleton University in 2014 where I had a good experience in enhancing my communication skills. I served as treasurer of Algeria Section for two years and I have attended IEEE dedicated training sessions for sharpening my financial management skills.

POSITION STATEMENT

The position of Treasurer needs someone who is experienced and skilled, and as you can see from my biography, I have worked in both administration and academia, for that I feel I have the required skilled to be your Treasurer. I will work hard to fulfill all my duties.

Algeria needs a strong academic and research recognition abroad, together, with your help and support, and my strong commitment, we will help to better represent our country in international institutions and organizations like IEEE.

It is for these reasons that I announce my candidature for the position of the IEEE ALGERIA Section Treasurer and with your vote you can help me win and give me the chance to serve you and all the members.
