

Minutes of the meeting of IEEE Algeria Section Members

Sunday, March 21, 2021 at 07:30 PM, local time.

Virtual meeting using Google meet

Staff of IEEE Algeria section participating at the meeting

- Prof. Abdelouahab Mekhaldi Chair
- Dr.Fatma zohra Chelali Vice Chair (Moderator of the meeting)
- Dr .Noureddine Chaib Secretary
- Dr.Amina Chentir Nominations

Guests (USA)

- Dr Kahina Lasfer, graduated from Stevens Institute of Technology, Hoboken. Design Manager (Chef de projets) at MTA (Metropolitan Transit Authority) Technology & Systems Department, New York, US.United States. IEEE member and IEEE SIGHT volunteer.
- Prof. Samir Aouadi, Department of Materials Science and Engineering, University of North Texas, USA. Member of the AAASTE: Algerian American Association For Science Technology and Entrepreneurship.

The meeting started at 07:30 PM. Firstly, we've presented an overview of the most important activities of our IEEE Algeria section.

After a brief introduction from the staff of the IEEE Algeria section, Dr Kahina and Prof Aouadi presented the objective of this cooperation to create an IEEE SIGHT Algeria group aiming to promote and encourage humanitarian projects in Algeria with the help of IEEE.

The staff of the IEEE section appreciated this action and decided to join this project which aims to develop innovative projects and to encourage researchers and students to send their proposals for a project of socio-professional interest. Algeria section planned to create a SIGHT IEEE Group for Humanitarian Technology.

The staff of the Algeria IEEE section thanked the colleagues Prof Aouadi and Dr Lasfer for their cooperation for creating the SIGHT IEEE Algeria group.

The meeting ended at 09:38 PM.

The IEEE Special Interest Group on Humanitarian Technology (SIGHT) is an Institute of Electrical and Electronics Engineers (IEEE) program, instituted by the IEEE Humanitarian Activities Committee (HAC).

IEEE SIGHT is a global network of groups consisting of IEEE members and volunteers who identify and address local problems by applying their technical skills and partnering with their local communities.

The Special Interest Group on Humanitarian Technology (SIGHT) program is a network of IEEE volunteers around the globe that partner with underserved communities and local organizations to leverage technology for sustainable development.
